**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm originally a customer of at&t. Back when I lived in Sunnyvale the heart of silicone valley ten years ago, I was surprised that I couldn't get any decent internet service there. Years after fiber technology comes out, consumers still are bound to cable or phone line internet services. Over years I started to suspect the Telecom company's practice. The faster internet comes after Google fiber joining competition. I realized that how important competition is to consumers. I immediately dropped all service contract from at&t, Comcast and embraced non contract phone idea of T mobile, data plan of google fi and new internet service from smaller company such as Sonic. Please help us and keep those competition alive - in this case we need unbundled network. The U.S. should not be backwatered in the digital age.
